PROFESSIONAL SUMMARY

Product Manager (Product Owner) with 8+ years of experience building and scaling multi-sided digital platforms across Commerce, FinTech and SaaS. Experienced in leading products from discovery to launch, partnering with executives to transform complex business models into scalable software. Passionate about leveraging AI to accelerate product development, optimize business operations and drive measurable growth.

Core Competencies

Product Strategy & Roadmap • Product Discovery • AI Product Development • B2B / B2B2C / Marketplace • Cross-functional Leadership • Agile Delivery • Data-driven Decision Making

WORK EXPERIENCE

Startup Subsidiary of PIGROUP | Product Manager

Group Buying, Demand Aggregation & Social Commerce - Mar.2026 – Present

Product Portfolio: Customer App • Sales App • Back-office Platform (Admin Portal)

- Defined product vision and roadmap for a multi-sided commerce ecosystem.
- Designed end-to-end product architecture across Customer, Sales and Admin platforms.
- Partnered with founders and business leaders to shape business models and operating workflows.
- Led product discovery, prioritization and cross-functional delivery.
- Leveraged AI-assisted research and prototyping to reduce concept-to-market by 30%.

FINVIET TECHNOLOGY | Product Manager (Product Owner)

B2B2C Commerce & FinTech - Apr.2023 – May.2026

Product Portfolio: Merchant App (Tiệm Số Hóa) • Loyalty Portal • Gamification Portal

- Owned product strategy and roadmap for the flagship merchant ecosystem.
- Partnered with C-Level executives and business stakeholders to prioritize product investments.
- Led cross-functional delivery across Engineering, Design, QA and Operations.
- Redesigned merchant workflows and integrated AI capabilities (Computer Vision, Chatbot).
- Coordinated enterprise integrations with KIDO, Thọ Phát, Ajinomoto, etc. and strategic partners.
- Increased registered users from **160K** → **320K+**.
- Grew MAU from **20K** → **90K+**.
- Increased retained merchants from **20K** → **75K+**.
- Scaled monthly transactions from **150K** → **350K+**.
- Reduced merchant task completion time by **2.5x**.

LILDAN PET SPA HOTEL & CLINIC | Founder

Aug.2022 – Apr.2025

Product Portfolio: Pet Spa • Pet Hotel • Veterinary Clinic • E-commerce

Startup Subsidiary of ONPOINT | *Product Manager (Product Owner)*

Social Commerce & Group Buying - Dec.2021 – Aug.2022

Product Portfolio: UNA Market (Web App) • Back-office Platform (Admin Portal)

- Owned product strategy and roadmap for a Pinduoduo-inspired social commerce platform.
- Designed group-buying business logic and platform architecture.
- Managed outsourced engineering vendor and internal cross-functional team.
- Led product delivery, QA and UAT from discovery to MVP launch.

HARAVAN | *Product Owner (Team Leader)*

B2B SaaS & Omnichannel Commerce - Apr.2019 - Dec.2021

Product Portfolio: POS • Inventory • Order & Transaction Management

- Managed core POS and transaction modules for enterprise merchants.
- Translated business workflows into product specifications and user stories.
- Prioritized backlog based on customer feedback and product metrics.
- Collaborated with Engineering, QA, Sales and Customer Success throughout delivery.
- Delivered enterprise features for Vinamilk, The Coffee House, Juno and other key clients.

PERSONAL PROJECTS

Eastern Classics | *AI-Powered Philosophical Insight Platform (Android, iOS)*

- **AI & RAG:** Built 0-to-1 LLM + RAG pipeline to contextualize ancient texts and eliminate hallucinations.
- **Cloud & Data:** Deployed decoupled Firebase Cloud Functions for real-time APIs, multi-turn logs, and automated retrieval.

UStillAlive | *Privacy-First Active Safety Network (Android, iOS)*

- **Core Logic:** Engineered "Heartbeat Sync" state machine for background device check-ins to replace GPS tracking.
- **Emergency Pipeline:** Built queue-based SOS workflow via Firestore & Cloud Functions for geocoding and FCM push notifications.

Voicemaker AI | *High-Performance Neural Text-to-Speech Platform (Web)*

- **Neural Synthesis:** Integrated Azure & Google TTS APIs with client-side engines for dynamic speed, pitch, and volume.
- **Streaming Audio:** Developed semantic-chunking algorithm and Web Audio API buffer for zero-latency playback.
